*A K-TEK™ product for ATARI® computer systems*

Now you can have your own private coach at home! Keyboard Coach comes with a visual program for your TV or color monitor in synchrony with an audio cassette narration complete with music. Your coach walks you thru the keyboard clearly explaining the use of each key, while you participate following prompts on your monitor. A fast, simple and painless way to introduce you to your new ATARI®. The program features the use of the cursor keys, special keys, including the select and start keys, and graphic capabilities. It can be the difference between using **any keyboard properly** as a communications device and allowing it to collect dust in a closet.

The computer program and the audio tape work together. Here's how:

- Insert diskette into the disk drive following the directions in your computer manual. Turn on your ATARI® Computer. To load type: LOAD "D1:KEYBOARDA". At READY prompt type: RUN (press RETURN).
- Insert the audio cassette in an audio cassette player. When you're ready to begin, press PLAY on the audio player. When the music begins, press any key on your ATARI® keyboard to start the program.
- When lesson is complete, press RESET. To load Part II type: LOAD "D1:KEYBOARDB". At READY prompt type: RUN (press RETURN).

**REQUIREMENTS:** ATARI® 400/800 Computer, Disk Drive, Audio Cassette Recorder & Hi-Resolution Screen.
