

PQ. The Party Quiz Game

QUESTION LIBRARY SOFTWARE

*Welcome to the growing library of supplemental questions for your **Party Quiz** system. You now have a broader base of questions to explore, and challenge your guests.*

Please take a moment to review the correct procedures for using this Question Disk.

A. Installation of Party Quiz system

*Refer to your original Game Guide (included with **Party Quiz**) for instructions on how to hookup the **PQ** interface box and special controllers.*

B. Using QUESTION LIBRARY SOFTWARE

Additional question library software can be used only after the original Party Quiz Program Disk has been loaded. Load the original program disk as instructed in the Gamers Guide.

C. To use a different question disk

- 1.) Load Program Disk*
- 2.) Remove Program Disk*
- 3.) Insert selected Question Disk*
- 4.) Press Button #1 on Controller #1*

NOTE: *To start each new game, ALWAYS turn on the computer with the Program Disk in drive 1 and the special PQ Controllers connected. "On screen" prompts will direct you when to change question disks. You must use controller #1 button #1 to tell the computer the new question disk has been inserted into the disk drive 1.*

If you are using an Atari Computer, both sides of this disk contain questions. You may begin with either side of disk. It is recommended that one side be used until most questions are used - then flip the disk to other side.

If you are using a Commodore 64, all questions are contained on one side of disk only.
