ADVENTURE INSTRUCTIONS

Type a two word command when the computer asks "WHAT SHALL I DO?" The first word must be a verb. The second word will indicate a direction or an object. For example, if you are in a dark room and the computer says "IT'S DARK IN HERE. I CAN'T SEE. WHAT SHALL I DO?" If you are carrying a torch, you can light it by typing: "LIGHT TORCH" [RETURN]. (If you make a typing error, use the left arrow key to correct it.)

If the computer can't perform or doesn't understand a command, it will say "I CAN'T DO THAT" or "I DON'T UNDERSTAND". If this happens, reword your command. Make a verb out of the action. For example, instead of "GO SWIMMING", type: "SWIM". Most objects can be picked up using the last word of their names. For example, to pick up a blue ox, type: "GET OX". Usually you can only do things to objects that are either visible or that you are carrying.

The following are some of the verbs you might find useful: CLIMB; EXAMINE; LEAVE; MOVE; QUIT; SAY; DROP; GO; LIGHT; PULL; READ; TAKE; ENTER; HELP; LOOK; PUSH; SAVE; WEAR.

COMMANDS

"C" – On/off lowercase. (Apple only)

"Z" – Graphics mode on/off: Turning the graphics display off speeds up play. You may wish to move through familiar territory without graphics. Type: "Z" again to restore graphics.

[RETURN] – Review text window: Valuable clues are often presented in the text window, so use this command often. Press [RETURN] again or type any command to return graphics to video display.

"N, S, E, W, U, D" – Directional Commands: To speed up play, type: "N", "S", "E", " W", "U", "D" instead of the commands "GO NORTH", "GO UP", etc.

"I" – Inventory: Because you often carry serveral objects with you, it is easy to forget which ones you dropped and which ones you are still carrying.

"SAVE GAME": Save your game and return to it later at the place you left off. Type: "SAVE GAME" when asked "WHAT SHALL I DO?" You will be prompted to insert a data disk and specify the area (A–D) in which to save the game. You can save a game in Area A and a friend's game in Area C. Up to four adventures in various stages of completion can be saved.

"QUIT": To end a game, type: "QUIT". If you intend to continue the game later, be sure you have saved it before using this command.
Before any game is started, you are asked if you wish to recall a saved game. If you do, type:"YES", specify the area you saved the game in, and the adventure will resume where you left off.

"HELP": If you get stuck, try: "HELP". You might get assistance depending on what you are carrying, where you are, etc.
