There are 11 categories:
SPORTS • STATES • UNITED STATES HISTORY • ANIMALS • WORLD
HISTORY • MUSIC • GENERAL SCIENCE • FAMOUS PEOPLE • VIDEO
GAMES • VOCABULARY • SHOW BIZ.

To view each category move the joystick upward. When you want to pick
a category that is displayed in the center square, press the button on your
joystick.

PICK SEVEN CATEGORIES.
After you have chosen seven categories the computer will ask:
NAME PLAYER 1:
Type the name of player 1.
Press the RETURN key.
Type the name of player 2.
Press the RETURN key.

SLOT TRIVIA™ will now begin.
There are three payoff amounts. When a category only appears once its value
is $50.00. When a category appears twice or once with a WILD CARD its
value is $100.00. When a category appears three times; twice with one WILD
CARD or once with two WILD CARDS, that category's value is worth $200.00.
When three WILD CARDS appear you will receive a bonus of $150.00 and
the computer will pick a category for you worth an additional $200.00.

To choose a category in one of the boxes, move the joystick to the left for
the left box, upward for the center box, and right to use the right box.

When you select a category a question will appear at the bottom of your
screen. To answer the question move the joystick up, down, right or left. Your
screen will display what position is needed for each of the answer choices.

When a player incorrectly answers a question **SLOT TRIVIA**™ will give
the other player a chance to correctly answer the question. If both players
incorrectly answer the question, the right answer will be displayed at the upper
part of your screen.

When a player reaches $1,000.00 the GAME IS OVER.

Press the START key to play again.
