ATARI PN2110

SUPER SKETCH ™

STARTER KIT

PERSONAL PERIPHERALS INC.

YOUR FIRST DRAWING

1. Plug in cartridge and Super Sketch Pad as shown in your instruction manual.

2. While holding down the RELEASE bar, slide this picture under the paper clamps as shown.

3. Turn on the computer (the title screen will appear).

4. Press and release MENU key.

5. Press and hold down LIFT key. The menu will disappear.

6. Move pointer on control arm until it is positioned over the bluebird outline.

7. Release the LIFT key to start drawing.

8. Trace the bird (be sure outline forms a solid border).

9. Press and release MENU to get menu back on screen.

10. Move pointer until menu arrow points to "FILL."

11. Press and release SELECT to select fill command.

12. Move arrow to darkest blue color bar.

13. Press and release SELECT. This is your new working color.

14. Press and release LIFT to go back to drawing.

15. Move pointer until cursor is inside the bird outline.

16. Press and release SELECT to fill each enclosed area.
