SPACE GAMES

INSTRUCTIONS

1. Turn on disk drive
2. Insert disk and BASIC cartridge
3. Turn on computer

Space Games is made up of 3 separate parts. They are -

- 1) SPACE WALKER
- 2) FOLLOW ME
- 3) FAZER MAZE

Press the SELECT key to choose, then press START to begin

SPACE WALKER

In the year 2000 man leaves the earth for the wide open places of space. By the year 2050, space itself becomes overcrowded with rockets, and the mad robot SPOT is on the loose. Your mission is to cross the void and reach the next level. Use your joystick to move up and down the screen. Go past the bottom of the screen to score points and advance levels.

FOLLOW ME

Follow me is a variation of the Simple Simon game. Use your joystick to point to the four different creatures on the screen. You must repeat exactly the sequence played by the computer. For each correct sequence you complete, another step is added and your rating improves.

FAZER MAZE

You must reach the FAZER gun at the center of the screen to save the Universe. You can play against the computer, or press SELECT for a two player game. Player 1 is in the lower right hand corner and races against player 2, or the computer, to be the first to reach the FAZER at the center of the maze. You'll get a brand new maze each time you play the game.
