1-800-551-9995 INSIDE CALIF. PHONE 415-352-3787

Thank you for your interest in American TV. We have one of the largest
inventories in the WORLD of hard to find Atari replacement parts and
accessories.

Catalog #A850A ATARI 850 SERIAL / PARALLEL INTERFACE BOARD (bare with
crystal). Build your own 850 interface using this board. This unit (when
completed) will allow you to use any standard parallel printer or any standard
RS232 modem with your Atari. Solves the difficult problem of interfacing a 1200
BAUD modem to your computer. We supply a parts list and a discription of a
minor circuit change that will allow you to replace the custom ROM with your
own code on 2532 EPROM. All parts on the 850 are industry standard except the
custom ROM and a 4433.618 KC crystal. This crystal is included with the board.
Caution: We do not supply the 850 custom ROM chip or code listing. BARE 850
BOARD WITH PARTS LISTING AND CRYSTAL $10.00

#A664 64K UPGRADE KIT FOR THE 600XL. This kit allows you to upgrade your 16K
600XL to 64K just like its big brother the 800XL. Makes your 600XL compatible
with all 800XL software. Easy to install kit includes all components and
instructions. Some soldering required. $29.95

#A700 REPLACEMENT ATARI JOYSTICK ..... $7.00 each.

#A217 810 CUSTOM DISK DRIVE. This fully functional disk drive includes the
latest production electronics. These are assembled by us. Very securely mounted
on an acrylic base. Does not include exterior plastic case. Can be used as is,
as most people do, or installed in your custom case. Ideal for use with Happy
enhancement, XL compatible. Includes serial I/O cable and power transformer.
Important notice: Exterior plastic case, manual, and DOS not supplied. These
units are ready to plug in and use. OUR LOWEST PRICE EVER $95.00

#ACX85 ATARI NUMBERIC KEYPAD. 17 Key pad allows for quick entry of numbers
into your programs. Plugs into joystick port number two. Includes a type in
program in BASIC that creates an autoload machine language program on your disk
drive. Please note: original diskette and manual not included. $15.00

#A6502 ATARI ROOTS BOOK. This classic book is a guide to Atari Assembly
Language. Learn how to program 6502 assembly language the easy way! Write
programs that would be imposable to write in BASIC, and that run 10 to 1000
times faster. Create complex sound effect and us graphics modes that BASIC does
not support. Includes enough information about the operation of the
EDITOR/ASSEMBLER cartridge to be an ideal companion to our #A8532
EDITOR/ASSEMBLER cartridge. ..... ATARI ROOTS BOOK ......#14.95

#A8532 EDITOR/ASSEMBLER COMPUTING LANGUAGE CARTRIDGE. Includes disassembler
and debugger. Cartridge only, does not include manual, however can be used with
#A6502 above. $10.00

** SPECIAL! Purchase Atari Roots #A6502 and the Editor/Assembler cartridge
#A8532 for a package price of $22.95 Order #SP6502

#A214 BASIC CARTRIDGE REVISION "A". This cartridge is the origional
replacement for the 800/400/1200XL series. As per a recent magazine article
MANY 800XL/600XL owners have been using this cartridge to solve the very
serious problems with the built in REV. B basic on the 800XL and 600XL. Simply
insert this cartridge in your XL before beginning basic programming. INCLUDES
the excellent tutorial and reference book INSIDE ATARI BASIC ....CARTRIDGE PLUS
BOOK $10.00

****** COMPUTER MODULES / CIRCUIT BOARDS ******

#A201 CX583 16K RAM MEMORY MODULE. Manufactured by Atari for their 800 and 400 computers. Heavy gold plated edge connectors for maximum reliability. Use these to expand your memory to 48K or buy one as a backup..... $9.50

#A202 10K Operating System Module for the 800. Includes the latest "Rev. B" ROMS which enhance your 800's performance. See instructions under "Rev. B" O.S. chip set later in listing to see which module you have in your computer. Heavy gold plated edge connectors. Without exterior plastic shell. Can be used as is without fear of short, there is plenty of room and insulation in 800 case, or simply replace your existing module by opening the plastic shell. Installation instructions included. ... $9.50

#A203 800 Power Supply board assembly. Fully assembled and ready to plug in. Includes RF modulator ... $9.50

#A203A 400 Power Supply board assembly. Fully assembled and ready to plug in. Includes RF modulator ... $9.50

#A203P RF Modulator module for 800XL/600XL ... $9.50

#A204 800 Main Board (Mother board.) This is the "base" board into which all other boards plug, including game cartridges. Fully assembled and ready to use including all IC's, Pokey, PIA, etc. $9.50

#A204A 400 Main board. Fully assembled and ready to use including all IC's, Pokey, PIA and Rev. B Rom set. $9.50

#A205 800/400 Central Processing Unit (CPU). Includes the new GTIA graphics chip, Antic chip and CPU chip. To see whether you have a CTIA or GTIA graphics chip in your computer enter and run the following BASIC program.
10 GRAPHICS 10
20 GOTO 10
If your screen turns black and stays black you have the new GTIA chip. If it flashes BLUE you have the old CTIA. Many programs require the GTIA chip to operate. ... $9.50

#A206 800 4 PIECE COMPUTER BOARD SET. ... Includes Main board, Power supply assembly, CPU module and 10K Rev. B Operating system module. All boards are complete with components. Ideal as a "backup parts set" for your 800. ...... $28.50

#A4000 400 3 PIECE COMPUTER BOARD SET. ... Includes Main board, Power supply assembly and CPU module. All boards are complete with components. Ideal as a "backup parts set" for your 400. ..... $20.00

#A205D 800 KEYBOARD REPAIR. ...$25.00 (Note: you must remove keyboard from computer, and you must not have tampered with or previously attempted to repair it yourself.)

****** 810 MODULES / CIRCUIT BOARDS ******

#A216AB REAR/ ANALOG UPGRADE Atari made a major production change in their 810 disk drive with the addition of the Analog board and the redesign of the Rear power board. This addition added improved read/write stability and data recovery and most important, rock steady speed control. (Recommended by Happy for their enhancement modification.) The old rear power board speed control design allowed a too large of speed variation under various conditions, causing error 144 and other problems. Our #A216AB upgrade set solves this problem by completely replacing your old rear board with a new redesigned rear power board and the addition of an analog board. Includes 10 pin jumper and instructions.

To see whether you have the old one of new style drive, open the disk drive door and tilt the drive and look up into the case, the analog style drive will have the analog board mounted on top of the drive and can be seen through the slot. $27.50

#A216A Analog Board for 810 disk drive $10.00

#A216B Redesigned rear power board for 810 disk drive. Will not directly replace an old style board without the purchase of #A216AB set above. $15.00

#A216C 810 Side Board. Complete with all parts and IC's including "Rev. C" fast format ROM. Does not include data separator/1771 FDC assembly. $29.50

#A216E 810 Side Board Assembly. Side board with installed Data Separator and installed 1771 FDC chip. $39.50

#A217A Atari 810 disk drive board set. Includes side board, data separator with 1771 chip, analog board and redesigned rear power board. 10 pin jumper included. $57.50

****** INTEGRATED CIRCUITS ******

#A202A 10K "REV. B" Operating System 3 chip ROM set for the 800/400. Many "Bugs" were corrected by the "Rev. B" ROMS, most severe of which are printer and disk drive routine errors. Many programs require Rev. B for proper operation. Strongly suggested for use with the new PRINT SHOP (TM) program. Includes installation instructions. To see which revision of ROM you have type in the following line in BASIC and press return. (Do not use a line number).
PRINT PEEK(58383)
     If the result = 56 then you have the old Rev. A ROM set. If the result = 0 then you already have the new ROM set. ... $7.50 per 3 chip set.

#A219G GTIA Chip, Atari part number CO14805. NEW! Upgrade graphics chip for the 800/400. Also used in the 800XL, 130XE, 600XL and 1200XL. See instructions listed under item #A205 to see which chip is installed in your computer. Installation instructions included. $4.50

#A219 POKEY CHIP. Part number CO12294. A Custom LSI 40 pin chip used in all models of Atari computer (Except ST).... $4.50

#A219A PIA (Periphial Interface Adaptor). Part number CO14795 . Chip for all model Atari computers (Except ST)..... $4.50

#A219B ANTIC CHIP. Part number CO12296. Used on 800/400 and 1200XL computers $9.50

#A219N ANTIC CHIP #CO21697. Exact replacement for use in 800XL/600XL and 130XE units $10.00

#A219NI FAST CHIP by Newell Industries. Replacement floating point ROM package for the 800 or 400. Up to three and 1/2 times the speed of the original. You can see the difference. Includes installation instructions...$15.50

#A219DL DELAY IC for use in XL machines. Atari part number CO60472. ..... $4.50

#A219D CO14806 Custom CPU chip. Used in 800/400 (Late production only), 800XL, 130XE, 600XL and 1200XL .... #4.50

#A219K CO104377/6502B CPU IC for older 800/400 units $4.50

#A219E 810, 1050, 850, 820 CPU Chip. Part number CO10745 ... $4.50

#A219F 810, 1050, 850, 820 PIA Chip. Part number CO10750 ... $4.50

#A219GM CO10444 IC used in 2600 Video Games $4.50

#A217C 1771 Floppy Disk Controller Chip. $10.00

#A217Q 2793 Floppy Disk Controller chip for 1050 disk drive ...$19.50

#A1050R ROM IC for 1050 disk drive. ... $13.50

#1050S 5713 STEPPER DRIVER IC for 1050 disk drive. 5.25

#A219Z We can supply you with ANY 14 or 16 pin IC in the 800/400 or 810 for $2.50. Please specify all the numbers on the IC plus the socket number, board description and type of equipment.

TRANSFORMERS AND SUPPLIES *****

#A210 REPLACEMENT POWER TRANSFORMER. Replacement for powering a00/400/1200XL computer, 810 and 1050 drives, 850 interface, 1010 recorders and the 1020 plotter. ... ATARI PART NUMBER CO17945 9VAC @ 31VA $14.50

#A210G Replacement transformer for 1027 printer...... $25.00

**** CARTRIDGE MAKING SUPPLIES ****

#A220N SIRIUS 8K PROM BOARD. Can be rewired to construct your own 8K EPROM boards for use with two 2732 or 2532 EPROMS. Instructions included. (Requires one 74LS00 IC for conversion, not included.) .... 8K PROM boards. 2 for $1.00

#A220E 4K EPROM Board by ATARI. Requires two 2716 EPROMS. Includes case. $5.50

#A220K Atari original cartridge cases. (Note: these do not fit #A220N above.)... Cartridge case ... $1.50
