This offer also includes our usual free overnight delivery.

Offer finishes on December 31st 1993.

Available only from Paragon Computers. 17 / 5 Short St. Perth. W.A. 6000.

Page Seventeen The Paragon Report November 1993

Welcome to issue nineteen of **THE PARAGON REPORT**

The magazine of **PARAGON COMPUTERS** Pty Ltd.
Australia's largest ATARI only dealer

THE PARAGON REPORT contains news, reviews and information for Atari ST users in Australia, New Zealand, U.S.A. Canada, Germany, England, Holland and Sweden.

The magazine is produced in house using the Paragon Desktop Publishing Solution, consisting of an ATARI TT030. Eizo 6500 A3 monitor, Megafile 44 hard drive. SLM605 Laser printer, Hawk CP14 Scanner, Augur OCR, Migraph scanner, and PageStream 2.2 Desktop Publishing Software.

Thank you to all the ST users for the moral support and for the kind remarks on the previous issues of PARAGON REPORT, (*please keep it up*). Due to numerous requests from readers of previous issues, we have included a list of our ST software, we would like to remind readers that our ST software list is updated every few days due to the arrival of new software, we also have specials on most software at the end of the month, to make room for new stock. Please call for the latest ST software and special list.

We welcome any feedback on THE PARAGON REPORT and any comments, suggestions, articles, reviews or news can be sent to (The Editor) c/o PARAGON COMPUTERS or leave a message on PARAGON BBS on (09) 325 5160 (it is free) or phone (09) 221 3216. / 3lines. (human response). 9am - 5.30pm W.A.S.T. Monday to Friday. 9am - 12pm W.A.S.T. Saturday. or Fax on (09) 325 8251. 24 hrs.

We would like to remind those of you out there with modems that the FREE PARAGON BBS is on line 24 hours a day with 300/300. 600/600. 1200/1200. 2400/2400. 1200/75. BELL. CCITT. 7 days a week. 365 days a year on (09) 325 5160. Give it a call and have your say.

Paragon Computers also offer a 300 dpi Laser printing service or up to 2400 dpi Imagesetter service for Atari ST computers along with scanning (400 dpi), Optical Character Recognition, Video and Audio Digitising services for Atari ST users, also in home video tuition for beginners and in-home tuition on any aspect of the Atari ST Computer, including Desktop Publishing and Desk Top Video.

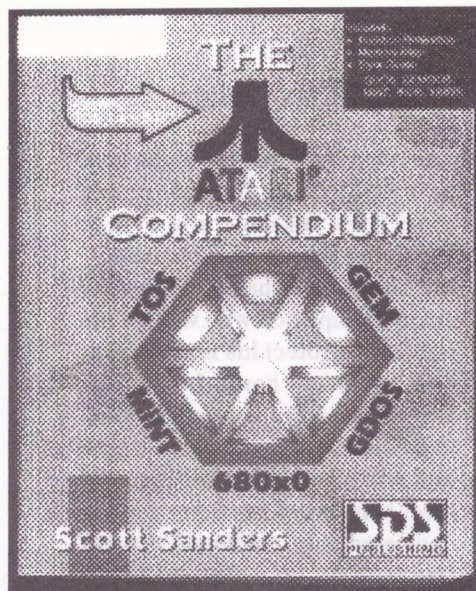

Paragon Computers has a fully equipped workshop and staff with a total of 33 years experience with Atari Computers, plus a large range of spare parts and accessories for the Atari ST and is authorised by Atari Computers Pty Ltd for all warranty repairs to the entire range of Atari Computers. As well as being an Atari Authorised Education Department Supplier, Paragon Computers is also an Atari Business Centre, Authorised by Atari Computers Pty Ltd to supply and service the entire range of Atari Business Systems including the Atari Mega ST and STE range, hard disk drive range including 804/605 laser printers, TT030, Mega STE and Falcon030 series, with the largest range of Atari ST and Falcon030 hardware, software and accessories anywhere in Australia.

If you would like to receive the next issue of THE PARAGON REPORT, please fill in the request form inside and post to:-

THE ATARI COMPENDIUM

Finally. The Atari Compendium provides the most comprehensive collection of information designed for every level of Atari programmer. This guide contains an explanation and detailed reference for every function present in TOS versions 1.0 through 4.0. In addition, you'll find coverage of some of the exciting new features present in TOS 5.0 and beyond.

Both professional and amateur programmers will find the Compendium the single most valuable reference ever published for Atari computers. The Compendium contains 860 pages of documentation, tables, and diagrams galore.

TABLE OF CONTENTS

Chapter 1: Introduction to Atari Programming	Chapter 11: GEM User Interface Guidelines
Chapter 2: GEMDOS	Appendix A: Functions by Opcode
Chapter 3: BIOS	Appendix B: Memory Map
Chapter 4: XBIOS	Appendix C: Native File Formats
Chapter 5: Hardware	Appendix D: Error Codes
Chapter 6: AES	Appendix E: ASCII Table
Chapter 7: VDI	Appendix F: IKBD Scan Codes
Chapter 8: Line-A	Appendix G: Speedo(tm) Fonts
Chapter 9: Desktop	Appendix H: The Drag & Drop Protocol
Chapter 10: XCONTROL	

Contained in the appropriate chapters are complete function references for each Atari system call in an easy-to-read format. The function reference in the Compendium is up-to-date as of MultiTOS 1.08b and TOS 5.0.

Some highlights of topics covered are:

- * GEMDOS/MiNT processes
- * MiNT interprocess communication
- * BIOS/XBIOS/GEMDOS Vectors
- * Falcon030 Video/Sound Control
- * Utilizing math coprocessors
- * Resources (including new TOS 4.0 resources)
- * True-Colour device graphics
- * Extensive user interface guidelines
- * The most complete memory map ever published
- * A complete "graphic" catalog of Speedo characters
- * File formats (.GEM, .IMG (including colour), .FNT, .RSC)
- * The TOS file system
- * Networking
- * The Cookie Jar
- * The DSP
- * The IKBD Controller
- * Window iconification
- * VDI Workstations
- * SpeedoGDOS
- * Desktop extensibility
- * Game controllers

Programmers using 'C', 'C++', 'Pascal', 'Assembler', or 'BASIC' will all find useful information contained in the Compendium. Each function call is listed with a binding (in 'C' or Assembler as appropriate). In addition, each function reference includes a 'Caveats' section which notes system bugs and which OS version they appear in (and a fix if possible). The Compendium is professionally bound with a four-colour cover in standard 7"x9" format.

Latest Atari ST Releases

Legends Of Valour.

Become a legend in your own lifetime.

It's the same the whole world over. After a hard day fighting goblins, dragons and assorted living dead, heroes gather together in musty taverns to swap tales of their prowess and bravery. At the time, these tales are called bare faced lies.. but as the veils of history shade the past they become Legends Of Valour.

Now you can write your own glorious chronicle of epic adventure in the city of Mitteldorf. from your first moments in the city streets, you'll find action, combat, romance, glory. You'll also find food, fine wine, comfortable hotels and a friendly law enforcement system.

Real life - forget it ! This is where you want to be.

clean up in hand-to-hand combat. Adjust the difficulty levels.. introduce the fog of war... do whatever you need to for victory.

Nigel Mansells World Championship

Become a Grand Prix legend in a race for the title of world champion. The most exciting racing driver in the world has teamed up with the greatest racing game producers to bring you the definitive Grand Prix experience.

Race the full 1992 season in the superb Canon Williams Renault F1 car. Real time coaching from Nigel Mansell himself. Experiment with the cars set up to achieve maximum performance for each of the 16 race circuits. Fast and furious race action with actual Renault F1 engine sound FX and superb detailed graphics.

Sleep Walker

Lee is having a restless night, sure he's fast asleep, but that won't stop him taking one of his nocturnal journeys. Fortunately, our sleepwalker has a courageous canine companion who will try his utmost to protect his master from coming to any harm. Lee's four legged friend is zapped, bashed and clobbered, pummeted, singed and squashed, but nothing will stop him from performing his dedicated duty, (although the odd fire hydrant may distract him). These midnight meanderings take him to the most hazardous of places .. the creepy graveyard, the gooky zoo, precarious construction sites and the traffic strewn city streets, but Lee's loyal rover steadfastly guards his master from all impending dangers. Featuring sound effects and speech by Lenny Henry and superb cartoon style animation

D-Day

5th June 1944. The storm clouds of war are gathering over the channel. Operation Overlord is about to begin, unleashing the allied forces against the might of the German army on the beaches of Normandy. You've honed your skills with training missions. Now, as the legendary General, Dwight D Eisenhower, you're ready to lead the offensive.

First study the war map, plan your tactics and give commands. Then it's into battle. Take to the skies at the controls of a B17 Bomber, softening up your target with a daring bombing raid. With explosions still ringing in your ears you drop the 82nd Airborne Paratroops into safe locations. Now, in the sweltering heat of a tank, you rumble towards the front line sqinting from the gunners turret you blast your way an enemy Panzer and thunder on..

Finally, wave in your infantry to

Reach For The Skies.

Summer 1940. The future of world war II hangs in the balance. The cream of the German Luftwaffe and the aces of the RAF are locking horns in their most crucial confrontation yet.. The Battle Of Britain.

Over 50 years on, you have the chance to re-live that famous battle and play the part of a British pilot or a German flying ace. Your performance determines whether the outcome is a repeat of the British victory or an unprecedented German success.

Re-live the crucial days of the battle as controller, pilot or gunner. Includes huge array of in-flight options and controls. Choose from eight meticulously recreated earoplanes Spitfire, Hurricane, Bf 109, Bf110, Ju 87, Ju 88, He 111, or Do 117.

Features record and playback modes - watch and re-watch your favourite dog fights.

Datalite

Datalite is a sophisticated, yet extremely simple to use utility that effectively doubles the capacity of your disks by using a combination of advanced compression and decompression techniques in the background.

Datalite features:-

Compress all types of files; data files, applications etc.

Works with both hard disks and all types of floppies; single sided, double sided and high density.

Can be installed automatically from the AUTO folder or just when you require its services.

Wide choice of compression algorithms so that you can optimize for size or speed of access.

Gives full control over its cache size, allowing you to choose between memory usage and speed of access to compressed data.

All functions are controlled from

Latest Atari ST Releases

easy to use desk accessory and you can even configure all of the dialogs.

Datalite works on all Atari 680x0 computers including Falcon030, monochrome and colour monitors supported.

Ultimate Virus Killer.

There are nearly 70 types of virus prevalent on the Atari ST. With this package you can detect, destroy, and protect yourself from virus attack, leaving your valuable software investment safe.

Scans disks and memory to detect suspicious system activity. Detects even unknown virus types and calculates a viral contamination probability. Immunizes your disks against future virus attacks.

Repairs damaged boot sectors on nearly 500 programs.

67 viruses recognized, immunized, and destroyed, including the dreaded link viruses that attach themselves to every program that runs and can destroy your data.

Over 1000 boot sectors recognised, nearly 500 specific disks repairable.

StraightFax 2.0

The ultimate Atari FAX communications software.

Send and receive faxes to and from fax machines and fax modems at speeds of 2400 to 14,400 baud using any Class 1 or Class 2 fax modem. Supports fine (203 x 196) and normal (203 x 98) fax resolutions. 100 number dialing list with automatic cover page generation. Send faxes directly from your favourite applications (Atari Works,

PageStream, Calamus 1.09/SL, Calligrapher, Thats Write and others) using unique print to disk drivers. Schedule transmission of multiple page, multiple destination fax documents at specific times. Enhanced send and receive logs give detailed information about every fax. Supports Supra Silent answer feature to allow sharing of a line for voice and fax calls. Convert faxes into .IMG, PCX, or EPS bit image formats for use with DTP programs. Directly fax IMG, Degas, GEM, PCX, ASCII, First Word, and Word Writer ST files. Straight Fax 2.0 takes advantage of the new 3D interface present in MultiTOS, Falcon TOS and Geneva. Its unique user interface makes it incredibly easy to use and simple to customize for your own personal, everyday use.

Page Assistant

The online electronic book for PageStream that offers quick referencing to all commands with concise screen summaries and tutorials.

Page Assistant is an accessory program that runs together with the PageStream software, providing on line help for each command. In depth macro tutorials. Tutorial on colour separation using CMYK model. Adding colour to black laser type. Includes a 52 page manual packed with tutorials on how to master the macro command, design textual and graphic effects such as rotating objects in a circle, place text on a path etc. Text, icons and pictures are used to illustrate, explain and give tips on commands step by step. Includes complete page referencing to the PageStream manual. Includes on line index and much more.

Lynx Software

Lemmings.

They climb, they dig, they explode.. but they can't fly! As the only member of the Save The Lemmings Foundation, it's your job to guide these munchkins to safety before they realise they have no landing gear.

Power Factor.

Transdimensional intruders from the Ceeg dimension have invaded our space. Only Redd Ace, with his Transmat Mutli-ordinance weapon can enter our dimensions reactor and find the six bomb components needed to destroy the Ceegarians.

Battle Wheels.

In the year 2019, Humankind turned to more and more dangerous games for its entertainment. Fight in high tech cars armed with missiles, machine guns, flame throwers, and more through dead cities and desert wastelands. A sixteen arena battle royal. Fight as a team or go in solo. Custom build your car from the ground up or buy one complete. You can even go on foot. Fast paced 3D six player action like never before.

Atari Falcon 030 software

Migraph Colour Scanner.

At last a colour scanner for the Falcon030 that's fast, accurate and affordable. With the MiGraph Colour Scanner you can now produce crisp, clear, vivid colour images for all your multimedia projects, on-screen presentations and desktop publications.. Whether it's a photo, illustration, drawing or cartoon, you can scan it with the MiGraph colour scanner. Works in Falcon Truecolour modes and saves images in Targa, TIFF, IMG, and IFF formats, compatible with Truepaint painting program.

Musicom.

Musicom is the complete solution for sound manipulation. Now special effects previously only possible in a professional music studio can now be achieved with the Falcon030. Feed your Falcon with 8 bit mono, 8 or 16 bit stereo sampled at between 8.2 and 50 khz; Musicom will eat all that directly from a microphone plugged into the Falcon.

With Karaoke you can mask out the lead vocal from most recordings. Move your living room into the Alps; using Digital Delay will make you sound like you're talking from the top of a mountain, and that's just the start, with special effects like phase, flange and harmonise at your disposal the possibilities for creativity are limitless. The harmoniser lets you take one voice and manipulate it to sound like harmony. Just imagine three of you singing at the same time and with 10 channel equaliser only a mouse click away your voice can go from Soprano to Bass. Everything may be recorded directly to the hard disk, ready for re-recording or further enhancement.

Falcon Speed The PC Emulator

Falcon Speed brings true PC emulation to your Falcon030 computer. Falcon Speed is a hardware emulator with a true 16Mhz 80286 microprocessor. It has a Norton SI rating of 12, and since many internal operations are accelerated, Falcon Speed is actually faster than many 80386 PC computers. Installation is a breeze, just plug Falcon Speed into the Falcons internal expansion socket.

The included configuration software lets you configure your "PC" to your liking. Falcon Speed lets you map any Atari hard disk partition to a DOS partition, in any order. All partitions (and floppy disks) are totally accessible while operating in both Atari and PC environments. Falcon Speed supports a number of video display modes in DOS, including CGA, Hercules, Olivetti / ATT, EGA monochrome, and VGA monochrome. If you run Microsoft Windows, you can use colour VGA and Super VGA video modes, including resolutions of 640 x 480, 800 x 600, and 1024 x 768. Additionally, Falcon Speed supports sound, the parallel and SCSI ports, and lets you use the Atari mouse in DOS, automatically configured as a Microsoft compatible mouse.

Because Falcon Speed supports the AT standard, the standard for which almost all PC software is written, virtually all DOS and Windows programs run correctly on Falcon Speed.

ScreenBlaster

The resolution Enhancement for your Falcon030.

Ever wanted to see more on the screen? Wish that you had a larger monitor? Combining powerful performance, easy installation, and affordable price, Screenblaster

can increase screen resolution by more than 300%

ScreenBlaster is simply plugged in between the Falcon030 and the monitor adaptor block - installed in seconds. The ScreenBlaster software lets you select a resolution from a simple menu, from enhanced 640 x 480 to 1280 x 960 pixels. With a standard SVGA monitor, the following are a few of the resolutions available.

640 x 480, 61 Hz, 100%

1152 x 832, 87 Hz, 312%

1024 x 608, 67 Hz, 158%

800 x 608, 67 Hz, 158%

640 x 480, 80 Hz, 100%

ScreenBlaster is compatible with all VGA and RGB monitors, and even increases resolution on Atari colour and monochrome monitors. Accelerated video is built-in, so you can increase the size significantly without degrading video performance.

Photo Show.

Kodak Photo CD software View Kodak Photo CD graphics as CD quality sound accompanies your show. Create your own narration for your photographs using a microphone and Musicom to create standard AVR files. Create scripts or view a full disk of photographs on RGB, VGA or broadcast monitors. Correct aspect ratio is maintained on all three monitor types. Record your show to VCR with no additional hardware needed. Photo CD images can be converted to other formats and edited with programs like TruePaint.

TruePaint

With the combination of its easy-to-use paint commands, its ability to run in any resolution (from monochrome to True colour), its flexible animation features and the sheer number of image file formats that it supports, TruePaint is a must for any user

Atari Falcon 030 software

of an Atari ST, TT, or Falcon030 computer. There is a comprehensive range of drawing tools including freehand drawing, lines of a variety of shapes and thicknesses, connected lines, rays, Bezier curves (if Speedo or Font GDOS is loaded), grids, arcs, general curves, rectangles, circles, segments and polygons. In addition you can fill any closed shape either while drawing or afterwards. Many special effects are provided, such as Rainbow (a blend between colours produces some stunning results), Shear, Wrinkle and Shadow. Animation couldn't be simpler - just build your frames and add them to your animation. Image Formats. A unique feature of TruePaint is the number of image file formats that it supports; IMG, Degas, Neochrome, IFF/ILBM, Targa, TIFF, GIF, JPEG and TruePaints own internal format. This range of formats allows the loading of a tremendous of 256 colour and True Colour images while giving you the choice to export your picture in the format that best matches its range of colours and its resolution. Image files are handled by external file modules, allowing easy extension of the number of formats that TruePaint understands.

DA's Vector

Do you want generate creative or technical illustrations in colour? Do you want to design complex logos with refined typographical features such as shaped text using all available fonts? Or do you require colourful presentations such as slides or overhead projections? Do you need to represent numerical data in pleasing graphics like diagrams, bar charts, pie charts or graphs of your own design? Or do you even want your own computer cinema to create comic films or computer

animations which can then be played on the computer or copied to video tape? Or perhaps you are looking for a program to produce video titles which, using a genlock interface, can be overlaid onto, or mixed with, film sequences? All this and much more you can do with DA's Vector, the first multi media vector graphics program in the world.

DA's Vector, is a colour vector graphics program for any Atari ST/E TT or Falcon computer, with at least 2Mb memory. Runs on all colour resolutions from monochrome through to 16.7 million colours with at least 640 x 400 pixels, and with any graphics board. Objects created with straight lines or curves. Objects can be scaled, rotated, projected onto 3 dimensional bezier surfaces, mathematically transformed (with integrated calculator), extruded, with user defined depth, light positioning and colour shading. Any vector area can be filled with halftone or colour pictures of any size. Text can be either justified, circular or multiple lines and can even follow a vector path of any shape or form. Uses PostScript type 1 fonts and CFN fonts. Automatically vectorises halftone and colour pictures of any size. Graphically presents statistics with pie charts, 2D or 3D bar charts and even self defined vector objects. Vector animation editor for video titling and multimedia applications. Simple to use animation sequences, just set first and last step and the program automatically calculates all steps in between. Produces multimedia animations in windows or full screen mode for video recording. Separate movie player program provided to distribute your computer animations freely. On-line manual and tutorial supplying help exactly where and when you need it. Import/Export

vector formats, CVG GEM-Metafile, Didot-VG, EPS (export only). Utilities, graphics converter, Font converter and gradient fill creator.

4TFX

4 Track Sound Editor

Internal sample rates: 50, 32, 24, & 12 Khz (48 & 44.1 Khz via SPDIO, 4I/4O or Singular's A/D64x). Four independant tracks with Play/Mute, Rec and Bounce. External synchronisation via SPMTE or MIDI Stereo recording from Falcons input. Four track simultaneous recording via 4I/4O or digital inputs.

4 Channel Mixer. Each channel features - Independant level meter. Independant left and right sends to Falcon stereo out. Independant left and right sends to DSP effects. Independant sends to 4I/4O four separate outputs. Left and right effects returns to Falcon stereo out. Independant effects returns to 4I/4O four separate outputs. Real-time Non-destructive Effects. Digital delay with Wet/Dry Mix, Delay time (500msecs). Feedback Stereo Reverb with various room sizes and reflection patterns. Stereo Flanger with Feedback, mod depth, rate and Delay. Stereo Chorus with Wet/Dry Mix, Mod depth, rate and frequency

Compatible with D2D Systems SPDIO, 4I/4O and ADAT Companion. Singular Solutions A/D 64x. Steinberg Cubase. Barefoot SMPTEmate and SMPTETrack.
