Atari ST Software Specials

Macadam Bumper \$9.95

Macadam Bumper isn't just a stunningly good pinball game, its also an easy to use tool kit which allows to design and play an endless number of pinball tables. The variety of moving pieces, the user friendly building system and the save to disk utility combine to let you build up a stock of great games.

Gold Of the Realm \$9.95

A game of exploration and challenging adventure. Somewhere within the castles twisted corridors and dark passages lies the Gold of the Realm. Guarded by wizardry and mysterious foes, the legendary treasure is yours if you can find it. Within the Realm you will find clues and objects to help in your quest.

Club Backgammon \$9.95

Club Backgammon provides a computer opponent that can play at three different levels, beginner, intermediate and advanced. Improve your strategy with the computer opponent and then challenge your friends. Club Backgammon has many exciting features. An automatic score keeper will keep score for you. The doubling cube lets you play for high stakes. The game log lets you see all the moves that have been made during the game.

Star Quake \$9.95

Just pick up these nine strange objects and carry them to the planets core. Simple enough. Except you don't know what the nine objects look like or where for that matter, the core is located. Fast action arcade style play. 512 action packed screens. 30 on screen colours. Save scores to disk. Four different musical scores available.

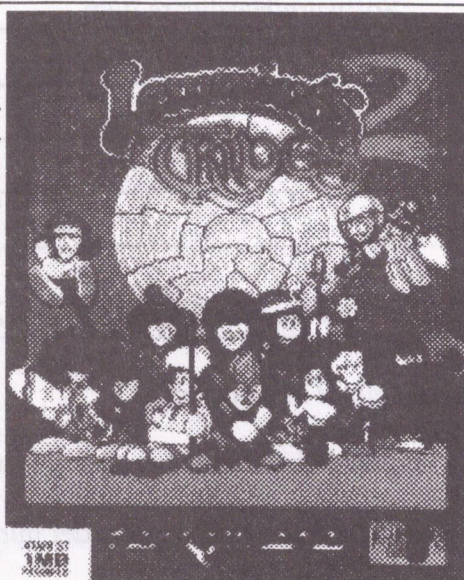

Gemini Wing \$9.95

Get ready to shoot and blast your way through wave upon wave of organic mutants in this superb conversion of Tecmos's brilliant arcade game.

Lemmings 2. Only \$39.00

The sensational sequel to the most popular computer puzzle game of all time. Over 120 levels, 15 superb sound tracks, 60 Lemmings skills and gameplay that has stunned gamers across the world.

Guide 12 tribes of Lemmings across Lemming Island on an incredible journey. The Lemmings are in trouble and only their ancient talisman and a huge amount of skill can save them in this long awaited follow up to the Lemmings Saga. Meet the Highland Lemmings, Space Lemmings, Beach-bum Lemmings, Circus Lemmings and many many more on a conquest to save their island.

Enhanced sound support with digitised Lemmings voices. 12 Tribes of Lemmings with over 60 brand new skills. A challenge for all ages from 7 - 70.

Atari ST Subjects Book

At last. A book written in plain English that explains many of the difficult procedures and concepts challenging the serious ST user.

This fascinating new book is packed with step-by-step instructions that help both beginning and advanced users to tap their ST's full potential.

were \$35.00
now only \$19.95

Should you wish to purchase software from the software / hardware list in this issue of THE PARAGON REPORT by mail. next day FREE delivery: please give the following details: or call PARAGON COMPUTERS : Phone (09) 221 3216 or Fax (09) 325 8251. Thank you.

Software/Hardware item	Quantity	Item cost	Total cost
By placing an order with Paragon Computers, you could WIN \$100 worth of software of your choice			
Total			

preferred method of payment:

- cheque: please state cheque number: _____
- money order: please state order number: _____
- credit card: please state which type: _____

credit card number:

expiry date: _____

name on credit card: _____

card holders signature: _____

Post to:- **PARAGON COMPUTERS**
17 / 5 Short Street
PERTH.
Western Australia. 6000.

I do not wish to place an order right now, please mail to me free of charge the items below:

- Please mail to me the next issue of THE PARAGON REPORT
- Please mail to me the current PARAGON COMPUTERS Software/Hardware list

Please mail to this address:-
 Please print clearly

Name: _____ Phone: _____

Street address: _____

Town/City: _____ State: _____ Post Code: _____

Any phone order for most in-stock software placed before 7pm Eastern time will be delivered to the above address the very next morning FREE of charge. No cheques cashed or credit cards charged until goods are shipped. Don't forget, if an item does not appear on our list, we may be able to order it in, usually within 14 days of request.

WIN !! \$100 worth of software of your choice to enter

Just place an order for software or hardware with Paragon Computers using the order form from The Paragon Report or by phoning (09) 221 3216 or Fax (09) 325 8251.

All names and addresses will be placed in a barrel and a winner will be drawn by

Bob Stuart of Radio KYFM

The winner will be notified by mail and will have the opportunity of choosing \$100 worth of software free of charge.

The winner will be published in the next issue of The Paragon Report. All orders will qualify for the prize. No limit to the amount of orders placed.

**Paragon Computers, 17 / 5 Short Street, Perth, W.A. 6000.
Phone (09) 221 3216: Fax (09) 325 8251**

Congratulations

Ben Curry, Kingston, ACT.

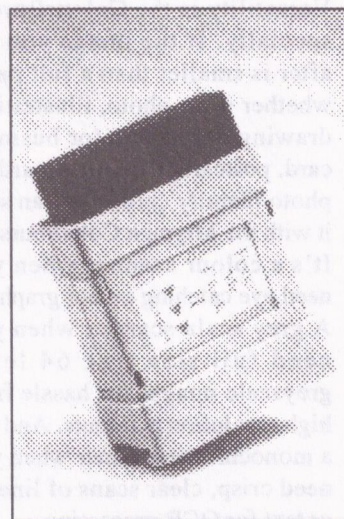

This issues winner of \$100 worth of Software

Forget Me Clock II Just plug in and go

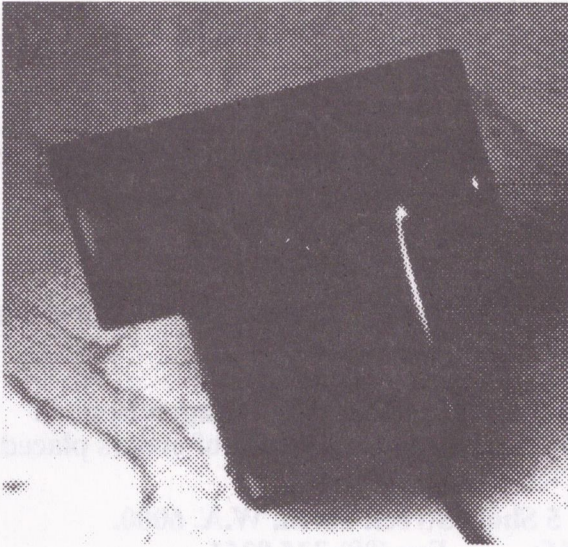

If you are one of those people who has an auto-run program annoyingly prompting you for the time and date every time that you turn on your ST or even worse, if you are one of those ST users who doesn't set the system clock, then Forget-Me-Clock II is the solution that you have been hoping for.

With Forget-me-Clock II plugged into your ST cartridge port the system clock and keyboard clock will automatically be set at turn on or reset. No longer will you have to waste your time setting your ST's clock. Using Forget-Me-Clock II also means that files saved on disk are always properly time and date stamped making finding the latest version of a file the simple task of just looking for the file with the latest time and date.

The Forget-Me-Clock II cartridge has full cartridge pass-through which means that any other cartridge for the ST can be plugged into it while it is plugged into your ST. The Forget-Me-Clock II remains totally invisible so that the other cartridge can be used normally, but it still automatically sets the system and keyboard clocks in your ST. **only \$79.00**

Atari Falcon030 True Colour Scanner

Migraph ColourBurst Colour Hand Scanner

At last a colour hand scanner for the Atari Falcon computer that's fast, accurate and affordable. With the Migraph ColourBurst you can now produce crisp, clear, vivid colour images, for all your multimedia projects, on screen presentations, and desktop publications. And have a lot of fun doing it.

A three in one scanning solution. Versatility is the ColourBurst's specialty. If the image you are after is smaller than a full page, whether it's a photo, illustration, drawing or cartoon (or business card, postcard, Christmas card, or photo identity card) you can scan it with the Migraph Colourburst. It's a colour scanner when you need eye catching colour graphics. A grey scale scanner when you need full size true 64 level greyscale images for hassle free, high resolution printouts. And it's a monochrome scanner when you need crisp, clear scans of line art or text for OCR processing

No-nonsense software.
The ColourBurst comes with

Colourkit, easy to use imaging software for accurate, efficient scanning. It picks up 262,144 brilliant colours in a single pass. The same software lets you quickly and easily save your image in a variety of standard file formats, ready for direct export to video, graphics and publishing applications.

The ColourBurst's large scanning window, more than four inches wide, provides fast, single-pass scanning. Six scanning resolutions from 50 to 400 dots per inch let you scan images at the resolution best suited to your chosen output device. Five scanning modes give you the flexibility to work with colour, grayscale and black and white images, all with one scanner, so you can produce exactly the image you need for the output option of your choice, on screen display, laser and Linotronic printouts, overhead transparencies or slides. With the MiGraph ColourBurst capturing high resolution colour (and grayscale and monochrome) images has never been easier, or more fun.

Features.
Speed.
Fast single-pass scanning.

Size.
Half-page scanning window 4.13 inches wide.

Five scanning modes.
Super colour (18bit), colour (12bit), grayscale, dithered halftone (colour), and line art (monochrome).

Adjustable resolution.
Six settings from 50 to 400 dpi.

Grayscale scanning
True 64-level grayscale scans at 400 dpi.

Monochrome scanning.
Scan line art for graphics projects or text for OCR processing.

Colourkit software
Quick, accurate scanning and easy saving for direct export.

Versatile file formats.
Save scans in a variety of standard file formats.

Compact design.
Comes complete with parallel interface and cable for easy installation.

Options.
MiGraph OCR Jr
Scan documents and turn them into editable text files with MiGraph OCR Jr which has these powerful features. Omnifont-based. Trainable (pretrained on 20 typefaces). User defined character libraries. Lexicons for higher accuracy

Welcome to issue Twenty of **THE PARAGON REPORT**

The magazine of **PARAGON COMPUTERS** Pty Ltd.
Australia's largest ATARI only dealer

THE PARAGON REPORT contains news, reviews and information for Atari ST users in Australia, New Zealand, U.S.A. Canada, Germany, England, Holland and Sweden.

The magazine is produced in house using the Paragon Desktop Publishing Solution, consisting of an ATARI TT030. Eizo 6500 A3 monitor, Megafile 44 hard drive. SLM605 Laser printer, Hawk CP14 Scanner, Augur OCR, Migraph scanner, Gemulator ST Emulator and PageStream 2.2 Desktop Publishing Software.

Thank you to all the ST users for the moral support and for the kind remarks on the previous issues of PARAGON REPORT, (*please keep it up*). Due to numerous requests from readers of previous issues, we have included a list of our ST software, we would like to remind readers that our ST software list is updated every few days due to the arrival of new software, we also have specials on most software at the end of the month, to make room for new stock. Please call for the latest ST software and special list.

We welcome any feedback on THE PARAGON REPORT and any comments, suggestions, articles, reviews or news can be sent to (The Editor) c/o PARAGON COMPUTERS or leave a message on PARAGON BBS on (09) 325 5160 (it is free) or phone (09) 221 3216. / 3lines. (human response). 9am - 5.30pm W.A.S.T. Monday to Friday. 9am - 12pm W.A.S.T. Saturday. or Fax on (09) 325 8251. 24 hrs.

We would like to remind those of you out there with modems that the FREE PARAGON BBS is on line 24 hours a day with 300/300. 600/600. 1200/1200. 2400/2400. 1200/75. BELL. CCITT. 7 days a week. 365 days a year on (09) 325 5160. Give it a call and have your say.

Paragon Computers also offer a 300 dpi Laser printing service or up to 2400 dpi Imagesetter service for Atari ST computers along with scanning (400 dpi), Optical Character Recognition, Video and Audio Digitising services for Atari ST users, also in home video tuition for beginners and in-home tuition on any aspect of the Atari ST Computer, including Desktop Publishing and Desk Top Video.

Paragon Computers has a fully equipped workshop and staff with a total of 33 years experience with Atari Computers, plus a large range of spare parts and accessories for the Atari ST and is authorised by Atari Computers Pty Ltd for all warranty repairs to the entire range of Atari Computers. As well as being an Atari Authorised Education Department Supplier, Paragon Computers is also an Atari Business Centre, Authorised by Atari Computers Pty Ltd to supply and service the entire range of Atari Business Systems including the Atari Mega ST and STE range, hard disk drive range including 804/605 laser printers, TT030, Mega STE and Falcon030 series, with the largest range of Atari ST and Falcon030 hardware, software and accessories anywhere in Australia.

If you would like to receive the next issue of THE PARAGON REPORT, please fill in the request form inside and post to:-

Gemulator

Run Atari ST software on your IBM PC Compatible

Protect your investment with Gemulator Atari ST emulator for the IBM PC compatible

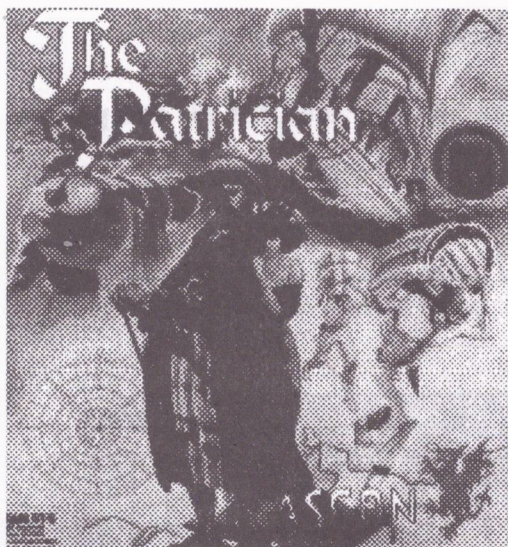

Runs on any 80386 or 80486 based PC with at least 2.5 megabytes of RAM, a VGA card, 3.5 inch floppy drive, and an 8 or 16 bit slot.

Gemulator supports up to 16 megabytes of RAM, 360K, 720K and 1.44M floppy disks, 19.2 kilobaud modems, parallel printers, 640 x 480 and 800 x 600 VGA graphics modes. Sound Blaster compatible sound cards and joysticks, and all versions of TOS from 1.0 to 2.06.

Gemulator is fully compatible with PageStream, Calamus, Calamus SL, MultiTOS, Geneva, Silhouette, Phasar, Straight Fax, LDW Power, Word Up, ST Writer, GFA Basic, Neodesk, Prism Paint, Flash, Tempus, Degas, Word Writer, First Word, Hot Wire, Multi Desk, Maxifile, GDOS, GPLUS, Quick ST, Warp 9, Word Flair, Ez Calc, GEMvelope, Sudden View, Laser C, St Xformer, Magic Sac, Interlink, Avante Vector, Thunder, UISIII, Data Master, Turbo ST, NVDI, Extended Control Panel, Word Flair II, and hundreds of other ST programs and desk accessories. Only software that makes use of the ST built in MIDI ports, copy protected disks, and some timing dependant software (like Spectrum 512) is not supported.

Latest ST Software Releases

The Patrician

Set over two centuries of European history "The Patrician" is an epic saga of power and money. As a successful Patrician you must rise to the top of the mighty Hanseatic League, the most powerful commercial organisation of the time. In your quest for power and wealth you must run an international trading organisation and become a social and political force in your community.

The Patrician is a trade simulation game for one or four people. The action is set in medieval Germany during the time of a powerful trading organisation known as the Hansaetic League. The player can choose one of eight Hanseatic towns to be his/her home base and, as a ship owner, send out his fleet to sixteen towns trading in eighteen different types of goods.

When you play Patrician you will soon notice that the price of goods is not fixed arbitrarily but adjusted to the economic structure of any town in question depending on supply and demand. Within certain limits they are constantly revised. The same goes for other parameters, such as goods production and population development. In addition, these

data are interlinked in many ways. For example the production of harnesses depends on the quantities of pig iron and leather available in town, as well as the number of people. The later is, in turn, dependant on the amount of food.

This means that in the case of The Patrician, no two games are identical, the development of the game is determined by your actions.

Elite 2 Frontier

The original game, Elite, shook the computer game industry to its foundations as the first 3D polygon space simulation back in the mid 1980s. The game was an unprecedented success and grew to such cult status that games players formed their 'Elite fan club'. A feat yet to be repeated.

The standard was set and gave rise to a multitude of sci-fi simulation 'wannabees'. Now as popular as ever, this unique style of game has been taken to the limit with the astonishing Frontier Elite 2

The most eagerly awaited sequel to date, Frontier pitches you far, far into the future to the year 3200. Civilisations have spread through the galaxy hundreds of light

years from earth in all directions. Vast areas of the galaxy remain unexplored and with many thousands of worlds now settled in the cosmos, a rich and varied life of adventure awaits.

Take on the role of space trader known to moonlight as an intergalactic mercenary and watch the Universe unfold before your very eyes.

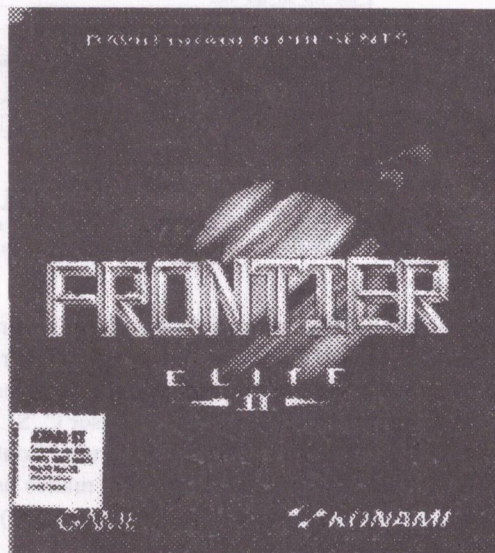

Features.

Beautifully animated introduction sequence.

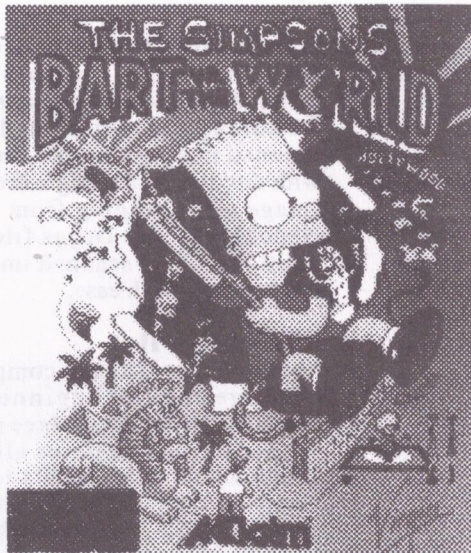

A choice of classical music compositions to accompany your missions.

Due to the author's interest in astronomy, all the planets and moons of our own star system and others, around 1000,000,000,000, are generated in accordance with current theories of planet formation.

Play the game in a variety of ways including manning your space craft through a massive 82 basic missions, or play without risking the missions at all

Latest ST Software Releases

The Simpsons Bart vs The World

An important message from Bart Simpson

Yo! When I heard I'd won the Krusty the Clown art contest, I said, "Forget it, man. This is Bart Simpson you're talking to, and Bart Simpson never won anything in his life." But Krusty said it, so there's no way to deny it. My family and I get on this really cool worldwide Treasure Hunt- to China, Egypt, the North Pole and Hollywood. And I need your help if I want to reach my final destination: a guest appearance on the Itchy and Scratchy Show.

The World-wide Krusty Treasure Hunt works in two ways. Bart's primary goal is to collect the numerous cheap Krusty items that are scattered throughout the countries he visits.

The second part of the Treasure Hunt concerns the rare one of a kind Krusty licenced products. One of these items is hidden in each level of a country.

Sound simple? If only it were that easy.

Magic Boy

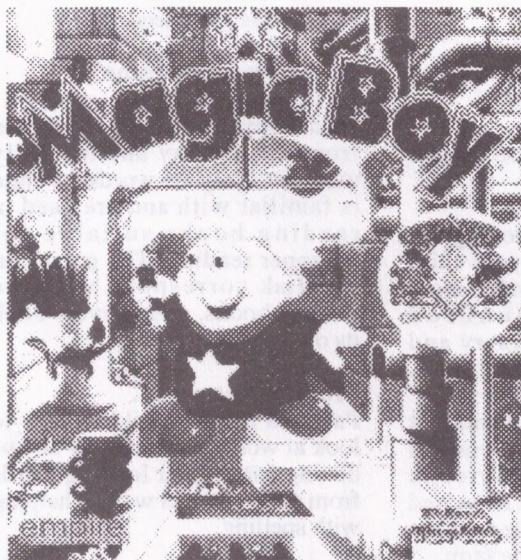

Little Hewlett is top of his class at Sorcery School. One evening he stays behind to finish some work and accidentally lets the Grand Wizards collection of crazy pets out of the basement. Can you help Hewlett get them all back before his master returns in the morning? Good luck, it's going to be a long night.

4 graphically stunning areas to explore, each with its own individual inhabitants.

64 levels, 4 of which can be accessed at any one time.

32 bonus packed secret levels for Hewlett to find and explore.

Hidden features, extra powers for Hewlett's wand, invincibility potions, hidden blocks, extra lives and extra continues.

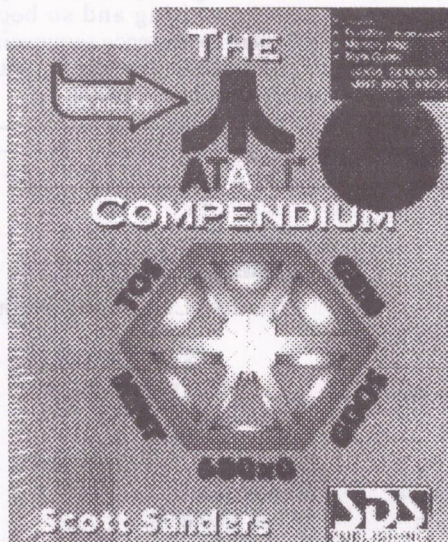

Progressive difficulty level.

Password system to access later levels.

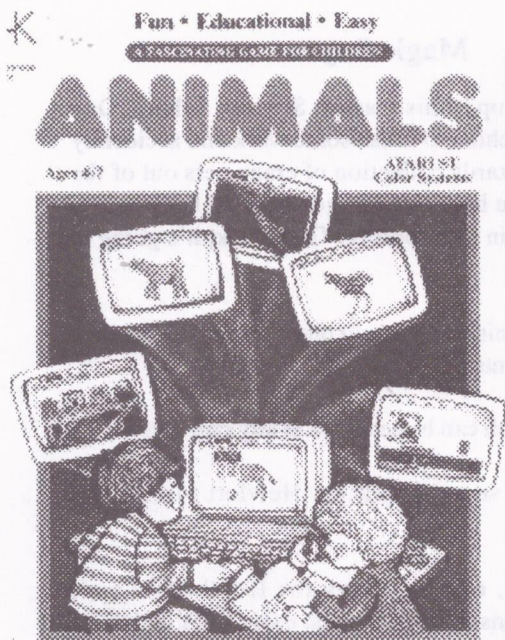

Superb cartoon animation.

If Hewlett is to return life to normal at the Sorcery School he is going to need all of his agility and cunning, as well as a touch of magic.

The Atari Compendium Provides the most comprehensive collection of information designed for every level of Atari programmer. This guide contains an explanation and detailed reference for every function present in TOS versions 1.0 through to 4.0. In addition, you will find coverage of some of the exciting new features present in TOS 5.0 and beyond

Atari ST Education Software Specials

Animals

Save \$20.00
Normally \$39.95
now only \$19.95

Your child does not have to read to enjoy this program.

The easy-to-use colour coding and visual symbols enable your child to sort, match, and assemble more than seventeen hundred combinations of imaginary and real animals.

You and your child will smile at the silly combinations that you can create with Animals. Correctly assembled animals can be stored on a wonderful animated circus train or in a pasture on the farm.

The Animals program will help your child develop hand-eye coordination while using the mouse.

By successful experience using a computer, your child will increase confidence and self-esteem.

- * Sort, match and assemble animals.
- * Colour coded menu.
- * Easy visual symbols.
- * Words to help with pre-reading development.
- * Wilbur the mouse controls all visual functions.
- * Save and store correctly assembled animals.
- * Computer becomes a 5 octave electric organ with percussion sounds.

Includes animated colour program disk with sound effects and music. 32 page colouring book with 30 domestic and wild animals with facts about each. 8 pages of cut out puzzle pieces for matching or creating animals.

Family Curriculum

Play and Learn Module.

Save \$10.00
Normally \$29.95
Now only \$19.95

Includes 3 of the Prof series of educational software packages.

Prof plays a new game.
Prof looks at words.
Prof makes sentences.

Prof plays a new game.

Part one teaches a sight vocabulary. The words are chosen from the Murray and McNally word list. They are words the child is familiar with and are used in reading books suitable for beginner reading. The games on the disk correspond with the reading books, giving every book its own game.

Prof looks at words.

Part two teaches children how to look at words more closely and so distinguish similar looking words from each other as well as helping with spelling.

Prof makes sentences.

Part three gives your child a gentle start to writing and so become efficient in sentence sequencing. It also offers a simple way to introduce the keyboard.

Family Curriculum Creative Computing Module.

Save \$10.00
Normally \$29.95
Now only \$19.95

includes:-
Hyperpaint II.
Music Maker II.
First Basic

Hyperpaint II supports a wide range of picture formats and provides an ideal environment for editing and retouching large scanned images suitable for use with desktop publishing software. Image sizes ranging from 32K Neochrome and Degas files to multi megabyte scanned images can be edited with ease.

Music Maker II

Music Maker II is the complete package for the beginner to computer music, it has three main sections. The composer allows you to write music directly to the computer screen and play it back through the ST's hardware. MIDI recorder records everything you play on a MIDI instrument connected to the built-in MIDI ports, allowing you to replay a song and edit it on screen. The drum pattern allows you to design and edit a drum beat using a number of different percussion samples. This can then be implemented into a composition written directly onto the staves.

First Basic

First Basic is a powerful and modern version of the BASIC language that gives you a totally integrated and interactive environment for the production of your programs.

Bentley Bear Educational packages

Now only \$9.95 each

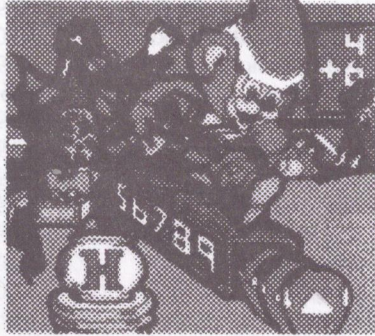

The Bentley Bear Educational series offers hours of education and fun for children from 5 to 10 years of age. Guiding your youngster is Bentley Bear, who entertains while teaching basic learning skills. Cute cuddly Bentley also reinforces ideas children learn in school, by making practice fun. Parents and teachers, or the children themselves can set difficulty and time parameters. Your child can help Bentley Bear solve problems quickly and easily using the computers mouse for control. Correct answers always provide Bentley with an entertaining reward.

Atari ST Education Software Specials

BENTLEY BEAR

ATARI ST

For introduction to the concept of associating the possible combinations of numbers to yield a given solution.

**Bentley Bear
Magical Math 1 \$9.95**

An introduction to basic mathematical functions of addition, subtraction, multiplication and division with a mix of mathematical problems.

**Bentley Bear
Magical Math 2 \$9.95**

An introduction to the concept of determining the possible combination of numbers to yield a given solution.

**Bentley Bear
Magical Math 3 \$9.95**

Introduces the basic mathematical functions of addition, subtraction, multiplication and division of fractions.

**Bentley Bear
Memory Master 1 \$9.95**

This strengthens a young students memory skills by improving concentration and associating the alphabet with pictures.

**Bentley Bear
memory Master 2 \$9.95**

This further develops the memory skills introduced in Memory Master 1

**Bentley Bear
Magical Anagrams \$9.95**

This introduces the concept of anagrams and teaches spelling and problem solving in a game playing environment.

**Bentley Bear
Spelling Bee \$9.95**

This teaches spelling via the deductive process and promotes the understanding of vowels and consonants and their use in context.

**Bentley Bear
Alphabet Tutor \$9.95**

This can be used as a child's

introduction to the alphabet. Colourful graphics are used to instill an association with consonants and vowels.

Introduction to Sound and Music

Save \$25.00
Normally \$54.95
Now only \$29.95

Includes:-
Music Maker Plus and
Sample Master.

Music Maker Plus
With its built in MIDI ports, the Atari ST is any musicians dream. Atari's Sound and Music package combines a high tech sound sampling cartridge with a powerful music package and drum machine. Grab sounds from your favourite video or album, then edit and mix them to put together amazing effects.

Music maker Plus. Is the complete package for the beginner to computer music, its three main sections let you compose, edit and listen to a variety of music whose content and type is limited only by your imagination. The composer allows you to write music directly to the computer screen and play it back through the ST's hardware, the built-in MIDI recorder records everything that you play on a MIDI instrument connected to the ST's built-in MIDI ports and the drum machine allows you to design and edit a drum beat using a number of different percussion instruments. Atari STE owners can even incorporate into their compositions, samples and effects generated using their Atari Sample Master cartridge.

Sample Master.
The Sample Master cartridge is a low cost, high tech sound sampling cartridge that plugs into any Atari ST or STE computer. With the sampling and editing software provided, it is possible to record sounds into the computer from any suitable sound source such as a cassette recorder, VCR or CD player.

Once sampled and stored inside your ST, sounds can then be played back through your TV or

monitor or through your HiFi system using the phono sockets at the rear of the STE. Sampled sounds can be edited in a variety of ways producing stunning sound sequences and amazing special effects. Sample Master and Music Maker Plus together provide an ideal and powerful introduction to sound and music on your Atari ST.

Kid Publisher Professional

A desktop publishing program for young writers.

Save \$10.00
Normally \$39.95
Now only \$29.95

Kidpublisher Professional lets even the youngest of writers harness the desktop publishing power of your Atari ST. Sophisticated features in this completely rewritten version include word wrap, four different font sets, an extensive drawing program and a title page option. Unlike children's desktop publishing programs for other computers, Kidpublisher Professional lets your child express his/her own creative impulses in both text and graphics. The program incorporates the kidfriendly user interface to allow even the very young users access to this powerful desktop publishing tool.

Features include:-
Fast word processor with word wrap and underline function. Automatically loaded font sets. Expanded drawing program. Autobooting disk for completely independent use by children. Movement of text cursor with mouse or arrow keys. Freehand drawing with mouse or arrow keys. Controlled keyboard repeat rate. Picture icons and colour coding. Title page option with automatic centering of title, author and illustrator. Limited alert boxes for ease of use. Simplified children's manual. Full instructions for parents and teachers. Familiar, consistent, educator tested kidprog format
