

A DAY AT THE RACES (ADAR)

ADDENDUM to the documentation booklet

Atari ST version

Page 3:

In the second paragraph it should be explained further that before a successful back-up of ADAR can be performed, the destination disks need to be formatted so that at least 390K of free space is the result. Many public domain formatting utilities will provide this much free space on a disk.

Remove the line "(603) 679-1211 - New Hampshire". That phone number is no longer valid for TEAM Software. Additional methods of contacting TEAM Software are:

FAX (703) 538-4598

CompuServe 73717,3174

GENie MLAKE

Page 4:

Remove the paragraph that begins "PLEASE NOTE - ...". That statement is not correct. Disk A does not have to be inserted into drive A to run ADAR from a hard drive.
