

Tape Loading Instructions.

- 1) Install basic Cartridge. (800 only)
- 2) If disc drive is connected make sure it is switched off.
- 3) Turn on computer.
- 4) Type RUN 'C' and press return twice.

Disc Loading Instructions (min 32K).

- 1) Insert disc in drive one.
- 2) Switch on Drive.
- 3) Install basic cartridge. (800 only)
- 4) Switch on computer.

Kopy T will automatically load and run. Simply follow the instructions on the screen to make a back up. With the 16K version, multistage tapes have to be made one section at a time (which involves swapping tapes) as just one section can be almost 16K bytes by itself.

The tape is recorded as follows:-

- | | | |
|---------|---------------------|-----------------------------------|
| SIDE A. | 000 KOPY T (32/48K) | single/multistage - no swapping. |
| | 050 KOPY T (16K) | single/multistage -with swapping |
| | | |
| SIDE B. | 000 KOPY T (16K) | single/multistage -with swapping. |
| | 040 KOPY T (32/48K) | single/multistage - no swapping. |
