---------------------	-------------	---------------

You may reprint uncopyrighted SLCC Journal articles in any non-commercial form, provided excessive praise is given the author and the SLCC. However, what is written within may be PBS.

## Stuff & Minutes

The July meeting started on time, proceeded on time and ended on time. All the Officers were in position and ready to accept their paychecks. There isn't much else to be said except the President is emptying all his closets and everything is going to the crooked raffle. So if you are in need of 8 Bit or ST software or hardware you had best get to one of the raffles before everything runs out. (Rumor has it that El Presidents new roommate has put its foot down on all this junk Robbie has accumulated over the past couple of years.)

According to the ABACUS July newsletter they have a petition that they are sending to Hasbro asking them to support the Jaguar and lynx. If you would like to help with your name contact them at, [www.geocities.com/timessquare/arcade/8063](http://www.geocities.com/timessquare/arcade/8063).

The ABACUS July newsletter also has an interesting article on the Sony Mavica FD-7 camera.. If you are interested in reading this article by Delmar Severy contact President Bridges to get a copy of the newsletter.

The news on the computer front this month is all pretty good for the average user, prices are dropping at a furious rate, with Intel having another round of price reductions that will cut most processor prices in half within the next few months. Not to be outdone AMD announced they would cut their prices 25% below Intel! Somewhere you have to wonder just how much profit there is in CPU's. Priced a 300MHz, Pentium 2, custom built unit for a friend with a big HD, lots of memory and a 19 inch Sony 400 monitor and the total was under \$2200. Considering the monitor he wants costs almost a \$1000 by itself, that is a phenomenal price.

See you at the meeting.

Jim Moran – Secretary

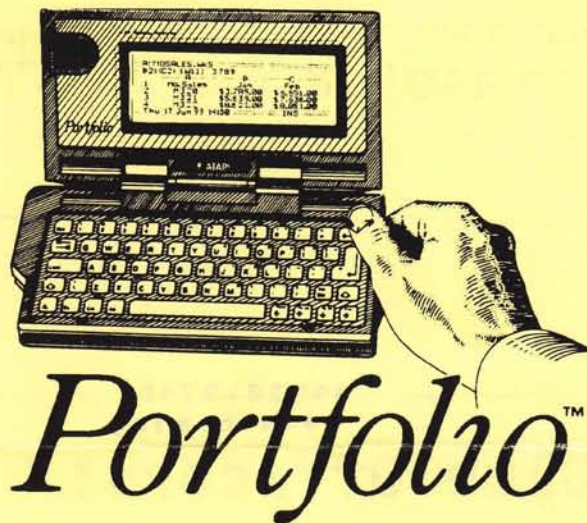

## NEW MEETING LOCATION St Leander School

St. Leander is just three blocks west (towards 1880) of the Library, on the south side of Davis street. Park in the playground at the rear of the school and use the entrance located there.

### **\*\* Bob Scholar sighted at Creekside Lodge \*\***

Our own DOM wizard has re-located down the road a piece in San Pablo! Now hanging his Atari at 13956 San Pablo Ave. APT#321 in San Pablo CA, 94806. Phone number is the same – just tied more string to the can, I guess. He tells this reporter that he still remembers the way to the meetings, so we'll keep the fire goin'.

## This Month:

Atari Portfolio will be there – just what you always wanted: MS-DOS in your pocket!!

**And, for the adventurous, the infamous Atari Laser Printer will be offered for the last time. Next stop is the Army ....**

*And not the one with all the guns!*
