Dear Customer

Please find enclosed a program to patch your copy of DA's Vector Pro v2.1. To run the program simply double click from the desktop, a file selector will appear asking you to select the DA's Vector Pro program file (DAVEKTOR.PRG). Once selected the patch will take place.

This upgrade fixes the following problems:

When switching to ENGLISH language many irregularities were apparent, especially concerning the splitting of Vector Text, quitting the program, and 3D projections.

Under MagiC/MagiCMac the import function would only let you import one graphic.

Certain dialog boxes and popups were not appearing under MagiCMac.

Sorry for any inconvenience caused by these bugs, and I hope there are no further problems.

Regards

A handwritten signature in black ink that reads "Rob Perry". The signature is written in a cursive style with a horizontal line underneath the name.
