

READ ME FIRST

Since the first printing of our reference card for the Atari ST, Sierra's 3-D Animated Adventures support several new features described in the "readme.1st" file located on your game disk.

To read the "readme.1st" file from the desktop, highlight and open the "readme.1st" file and select the "show" option to read the document. Press the CTRL-C to return to the TOS desktop.

If you want a hardcopy, make sure your printer is on-line, open the "readme.1st" file, and select the "print" option.

READ ME FIRST

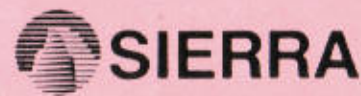

A message to our friends not living in the United States.

The adventure game "Leisure Suit Larry in the Land of the Lounge Lizards" begins with a short trivia quiz designed to keep children out of the program. (If a player can't guess correct answers, he doesn't get to play.)

Unfortunately, we have found that this quiz focuses on trivia concerning U.S. politicians, celebrities, and lifestyles. Adults living in other countries have not been able to answer the questions correctly (and thus have not been able to move on to the really good stuff).

To bypass the trivia contest completely, answer the first trivia question with "Alt-X". The computer will think you have answered all the trivia questions correctly, and you will be able to begin the adventure game from there.

We apologize for any inconvenience this may have caused.
